

EXECUTIVE SUMMARY

On October 26, 2006, the Division for Air Quality received an application from JIM BEAM BRANDS CO for a minor revision to their air quality permit, for the operation of a their Booker Noe facility at Boston, Kentucky. Emissions from the previous revisions are voluntarily limited by the permittee to attain synthetic minor status.

In conclusion, a thorough analysis has been made of all relevant information available which pertains to this application. The Division has concluded that the proposed operation will comply with all air quality regulations and requirements.

The U.S. EPA was notified of the minor revision of the permit on November 15, 2006 via e-mail. The comment period expired 45 days from the date of e-mail. No comments were received during this period. The minor revision permit is now being issued.
